

## Arrival Instructions for Guests:

Finding the Rafik B. Hariri Building can be challenging for some guests. Parking on campus is limited, and we strongly recommend that visitors travel to campus by taxi or rideshare. DO NOT use the campus address, as it will navigate to the front gates across campus from the Hariri Building. Uber, Lyft, and Google Maps all recognize "McDonough School of Business Rafik B. Hariri Building" if you type the building name directly into the app. Your driver will need to enter and exit campus via [Entrance 4](#) on Reservoir Road.

If you are parking on campus, you will need to pay to park in the Southwest Garage, which is accessed by entering campus via the [Canal Road entrance](#) off of M St. To get to the Hariri Building from the garage, exit the garage through the North exit and walk around the football field to the stone-faced building on the other side of the field.
