

Arrival Instructions for Guests:

Finding the Rafik B. Hariri Building can be challenging for some guests. Parking on campus is limited, and we strongly recommend that visitors travel to campus by taxi or rideshare. DO NOT use the campus address, as it will navigate to the front gates across campus from the Hariri Building. Uber, Lyft, and Google Maps all recognize "McDonough School of Business Rafik B. Hariri Building" if you type the building name directly into the app. West Road by Cooper Field is currently closed for construction. Your driver will need to enter and exit campus via either [Entrance 4](#) on Reservoir Road to get dropped off at the building, or [Entrance 6](#) on Canal Rd. to access the SW guest parking garage.

For general guest parking on campus, you will need to pay to park in the [Southwest Garage](#) ([check link for rates](#)), which is accessed by entering campus via the [Canal Road entrance](#) off of M St. To get to the Hariri Building from the garage, exit the garage through the North exit and walk around the football field to the stone-faced building on the other side of the field.
