VITAL SPEECHES *of the day*

POLICY OF VITAL SPEECHES

The publisher of *Vital Speeches of the Day* believes that it is indeed vital to the welfare of the nation that important, constructive addresses by recognized leaders in both the public and private sectors be permanently recorded and disseminated—both to ensure that readers gain a sound knowledge of public questions and to provide models of excellence in contemporary oratory. These speeches represent the best thoughts of the best minds on current national and international issues in the fields of economics, politics, education, sociology, government, criminology, finance, business, taxation, health, law, labor, and more.

It is the policy of the publisher to cover both sides of public questions. Furthermore, because *Vital Speeches of the Day* was founded on the belief that it is only in the unedited and unexpurgated speech that the view of the speaker is truly communicated to the reader, all speeches are printed in full. When it is necessary to condense a speech for reasons of unusual length or the use of extraneous matter, it is so stated. Speeches featured in *Vital Speeches of the Day* are selected solely on the merit of the speech and the speaker, and do not reflect the personal views or pre-established relationships of the publisher.

Subscribers are urged to call the editor's attention to any speeches that have impressed them as outstanding so that copies may be secured for review.

Editor & Publisher
